**Subject:** Presidential Plastics Action Plan

Dear Ms. Nishida,

I am writing to notify you of an Action Plan endorsed by over 600 organizations that directly relates to your work.

As you know, the world faces an indisputable plastic pollution crisis. More than 99% of plastic is created from chemicals sourced from fossil fuels, including an oversupply of fracked gas, which is spurring a global boom in new plastic production. That plastic causes serious environmental problems at every step of its lifecycle.

That's why 600+ organizations endorse the Presidential Plastics Action Plan, which outlines eight actions President Biden and agencies like the EPA can take to significantly curb the plastic pollution crisis. Any action on climate must address plastics.

I am attaching the Presidential Plastics Action Plan for your review. You can also find it at [plasticfreepresident.org](https://plasticfreepresident.org).

**The convening partners of this plan would appreciate the opportunity to meet with you or another appropriate contact at the EPA about this action plan.** Please advise how to schedule a meeting.

Looking forward to hearing back from you. If you have any questions, you can reach me at [sprufer@biologicaldiversity.org](mailto:sprufer@biologicaldiversity.org).

Best wishes,

Stephanie Prufer
